

If you are looking for the perfect little table to flank the sofa in the den or to place in the sun room displaying your prized African Violet, this antique Belgian table should not be overlooked. The naive hand carved style of the apron and legs literally emanates a feeling of warmth and comfort. The top of the table, also in oak, has been tastefully accented with a simple carved design. If the beautiful 100 year old wood and design are not enough to charm the most discerning eye, this table also touts a spacious drawer.
